

SUMMER LANE STRONG STARTS

Our Community Pledge

A pledge is a solemn promise. Our 'Strong Starts' have come directly from consultation with our children as part of our aim to give the best experiences and opportunities they can have in life.

We want to give our children experiences to cherish and to help develop happy, ambitious individuals. The experiences are designed to build aspiration and to give our children future interests - an experience to educate, empower and inspire.

Our pledges have been developed to broaden our children's horizons - opening their eyes to the myriad of careers they might pursue.

Summer Lane Primary School

At Summer Lane Primary School, we are dedicated to creating an environment where every student thrives. Our aim is to nurture confident, lifelong learners who embrace resilience, take pride in their accomplishments, and actively contribute to the world around them. In order to achieve this, we have five key areas of experience that enrich children's life experiences, broaden their horizons and motivate their aspirations. By providing a rich diet of experiences for students as part of our school offer, we nurture the whole child and provide the 'Strong Starts' on the journey to adulthood.

These experiences encourage children to build an enduring connection with the world around them, building up essential skills that will stay with children for life.

Educational visits have substantial benefits to the education and development of children. For many, they offer opportunities to enrich learning experiences

Visits that build on the children's understanding of the range of faiths and cultures that comprise our society.

A fundamental British Value to build a mutual respect of other religions and cultures.

Attending live performances exposes children to new crowds and environments. It helps to develop a sense of belonging and build emotional intelligence and appreciation for performance.

Building community and social connections within our locality assists in boosting children's confidence whilst interacting with others who differ from them in age, belief, occupation and a myriad of other ways
