Autumn Term 2

Christmas Fair

Thank you so much for attending our Christmas Fair yesterday. We're delighted to share that we raised £634.17, which will go towards enhancing our school reading resources.

We truly appreciate your support and generosity and hope you had as much fun as we did!

Inset Day - Monday 24th November

Please be aware Monday is an Inset day for school and is closed. School will reopen on Tuesday 25th November.

F2 Donations

As Christmas is fast approaching, some of you may be having a clear out before the children are inundated with new toys. You may also be clearing out your wardrobes. If so, Foundation 2 are in need of the following:

*Hats, scarves, handbags, purses, boots, coats and pretend wigs for role play.

*Necklaces, bangles and belts.

*Any small world toys- cars, diggers, construction vehicles, fire engines, play people, space toys, buses, aeroplanes, wooden play food, pirate ships, boats, sea animals, castles, dolls and fairies (we don't need any dinosaurs!).

Also, we don't need any dressing up costumes.

Thank you so much for your continued support!

Caring for Children's Smiles!

Winter is a season full of celebrations, and with it often comes an abundance of sweet treats for children. While enjoying these festive moments is important, it's equally vital to look after children's teeth during this time. Establishing good oral health habits from an early age is essential for their overall health and wellbeing.

Keeping smiles healthy during Autumn & Winter

Even during the excitement of Halloween, Bonfire Night, Hanukkah and Christmas, keeping up with brushing routines is the best gift you can give your child's smile!

- ❖ Brush twice a day for 2 minutes once in the morning and again at night. Night-time brushing is especially important, as it clears away the day's plaque and food debris before sleep.
- ❖ Spit out excess water after brushing but **do not** rinse with water, as this washes away the fluoride.
- ❖ Children **up to age 7** should be supervised while brushing, why not make it fun and brush together to a toothbrushing song - [Sing along with The Toothbrush song from Hey Duggee - CBeebies](#)
- ❖ Using a Fluoride toothpaste helps strengthen teeth and prevent tooth decay

Did you know that Supermarkets own branded toothpastes can often be cheaper to buy than branded toothpaste, just check the ingredients and make sure it contains **fluoride**. More information can be found here: [NHS](#)

- ❖ All children are entitled to free fluoride varnish application, speak to your dentist about this.

Top tips during Autumn & Winter Celebrations

- ❖ Serve sugary snacks or drinks with meals during winter celebrations to help reduce the risk of tooth decay while still enjoying the festivities.
- ❖ Tooth-Friendly Trick-or-Treat Swaps such as stickers, stationary, or trinkets
- ❖ Create a themed toothbrushing chart such as Santa's smile tracker.
- ❖ Swap sugar treats for healthy alternatives like fruit, cheese or plain yogurt. Visit [Healthier Food Swaps](#) or download FREE [NHS Food Scanner app](#)
- ❖ Why not consider other alternatives to chocolate and sweet treats such as books, arts and crafts, bath bombs, puzzles.

Fun Fact...

Unlike bones, teeth can't repair themselves once enamel is damaged, it's gone for good.

Sugary treats and drinks can wear down enamel, especially when eaten often throughout the day.

You only get one set of teeth, so spread the word to look after them!

The Children and Young People's Public Health team have created a '[Oral Health Guide](#)' which is a lifelong guide to promoting good oral health habits and useful [resources](#). why not take a look

For more advice, visit the [NHS website](#) or speak to your dentist.

Have you asked your dentist about fluoride varnish?

What do you need to know?

Fluoride varnish is strongly recommended for all children and some adults who are at higher risk of tooth decay. NHS dental care, including fluoride varnish is **FREE** for all children and some adults.

What happens?

A sticky gel is painted onto the teeth with a soft brush. It only takes minutes to apply and dries quickly.

How does it work?

It helps to strengthen the hard surface of the tooth which helps to prevent tooth decay and the need for dental treatment such as fillings or extractions. It can also reduce tooth sensitivity.

Why is it important?

Tooth decay can cause pain, infection, and other problems that affect our overall well-being. It's also one of the most common reasons for children to have to go to hospital for teeth to be removed.

How do I get it?

Ask your dentist about fluoride varnish for you and your family. To find information about local dentists, visit:

The NHS website:
nhs.uk/find-a-dentist

For more advice about looking after teeth and gums, including information about who is eligible for **FREE** treatment, visit:

This month, Anti-Bullying awareness week is the 10th-14th November. Studies in 2024 show that 67% of young people who experience cyberbullying report significant emotional distress, including anxiety, depression, and social withdrawal. Social media sites continue to be the leading platforms where cyberbullying takes place. Open conversations about what young people are accessing and experiencing online is vital to making sure young people who experience cyberbullying know they are not alone, there is help available to support them.

UNDERSTANDING CYBERBULLYING

Cyberbullying is when someone uses technology, particularly the internet, to intentionally hurt, harm, or upset another person. It can happen through social media platforms, text messages, group chats, emails or even online games. As a parent/carer, it's important to understand that cyberbullying isn't just about online arguments or disagreements, it involves repeated, deliberate actions aimed at targeting and distressing someone. Cyberbullying can have a serious and long lasting impact on young peoples mental health and wellbeing.

TOP TIPS

HEALTHY ONLINE HABITS...

Make talking about your child's life online a part of your daily conversations. The more you talk about the internet together, the more comfortable your child will be to come to you when they need support. Take an interest in the things they like online, what YouTuber they watch? which influencer do they like? Why? Does anyone or anything make them feel negative online?

HELPING YOUR CHILD UNDERSTAND THE IMPACT OF CYBERBULLYING

The impacts of cyberbullying can be profound and long-lasting. When bullying takes place online it is often harder to escape, and can have both immediate and long-term consequences.

Talk to your child about;

- ✓ How to be respectful to peers online, what language to use and why that's important.
- ✓ Online Peer Pressure - why it is not ok to join in cyberbullying to fit in with peers.
- ✓ Sharing other peoples information without consent - sharing images of peers, personal information which will embarrass, humiliate them.
- ✓ Using group chats - isolating peers on purpose. How would that make them feel?
- ✓ Talk about the consequences of cyberbullying - mental health impact, social media rules and laws within the Online Safety Act.

TOP TIPS

MANAGING TIME ONLINE

In our class workshops young people tell us often they are sometimes on technology, accessing the internet until early hours in the morning. It's crucial for parents/carers to support their child in managing their time online. Allowing children to access the internet or their phones late at night can expose them to several risks that affect both their physical and mental health, as well as their social well-being

- Establish rules for all devices, where can they use their device? What time can they use it till? Where are devices kept at night?
- Use parental controls and set time limits.
- Model healthy habits for your child to learn
- Support your child with a good night time routine.

ONLINE PEER PRESSURE

Young people can often feel forced to act or look a certain way because of what others do or expect on social media. It can often make people seek approval through likes or trying to fit in with online trends. It can often feel like there is no escape from online pressure. Help your child focus on their unique strengths and values, rather than seeking approval online. Encourage hobbies or activities that boost their confidence offline, like sports, music, or volunteering.

Young people don't always tell adults when they are experiencing cyberbullying, they might struggle to explain what is happening or be afraid it may get worse. It is vital they know they are not alone and support is available to help them. Share the below online support services with your child, so they are aware that they are there, if they ever need them.
